high population density	low population density
migration	rural urban
rural to urban migration	ethnically diverse
ethnicity	Welsh Cymraeg
Eisteddfod	Wales British
identity	minted floral

Population

Is this place densely or a sparsely populated?

Population is the number of people living in a certain place. A village, city, state, province, country or continent all have a population.

Some people **migrate** because:

- they have found a new job in a different place
- they want to live in an area with more shops
- they want better transport like buses and trains
- they want to be closer to their family
- they do not want to live in a big city anymore and want to be the countryside with more trees and green spaces.

Wales has a distinctive culture including its own language, customs, holidays and music.
