Cityscapes

Year: 5

Term:

Key Vocabulary

Cityscape—Artwork which portrays the landscape of a city.

Pop art – Art based on modern popular culture.

Abstract - Art that does not attempt to represent images exactly as we see them. They may be distorted views.

Texture—The look or feel of different surfaces. Silhouette –A solid shape of a single colour ,usually black.

Perspective. A technique used by artists to create depth and representing 3-D objects in art.

Reflection –An image seen in a mirror, glass or water.

Angle— The difference in direction between two lines that meet.

Charles Fazzino

one of the most popular pop artists of all time thanks to his highly detailed, three-dimensional style that captures popular culture in vibrant and fun works of art.

Leonov Afrenov

Regarded as the best palette knife and oil painting maestro, Russian-Israeli artist Leonid Afremov is one of the most unique artists working today. Known for his individualistic style and unconventional approach.

Different mediums

Over the course of the topic we will be working with different art mediums and materials including coloured pencils, paints and photographs. We will be looking at 3D art and also shading.

Cityscape Silhouette

Artwork showing the outline of a set of buildings either an actual skyline or fictional filled in normally with black.
